

Carnelian Woods Pile Burn to begin as early as 10/30/2023

PLEASE DO NOT REPORT SMOKE

The ignition of piles is weather dependent. We will begin evaluating conditions beginning 10/30/23 and will re-evaluate daily until all piles are ignited. There are 108 total acres of piles in the project including private and state-owned property. Smoke may be present for up to 10 days following the ignition of all piles.

For more information on wildfire risk reduction projects visit tahoelivingwithfire.com/get-informed or scan:

Information is also available by phone at 530-543-2816

2023 Carnelian Woods Pile Burn Map Private and California Tahoe Conservancy Property
