

Carnelian Woods Pile Burn is planned to resume 01/03/24

PLEASE DO NOT REPORT SMOKE

The ignition of piles is dependent on several factors including weather. Conditions are looking to be favorable Wednesday, 01/03/24 and burning will continue through the week. Up to 44 acres will be burned at this time, but additional acreage remains for this project across private and state-owned property. Smoke may be present for up to 15 days following the ignition of all piles. Measures are being taken to minimize smoke impacts.
